

1 We've already done that before".

2 Q You've pulled that surveillance video on
3 December 2nd at approximately 10:45 a.m..
4 Correct? .

5 A Yes. There is clearly a large black
6 male walking into the business -- into the
7 Rite Aid on December 2nd fifteen, twenty
8 minutes before the robbery. His face is
9 completely visible. It's not covered in any
10 way.

11 Q This is when that person is casing out
12 the store. Is that correct?

13 A We believed at the time we pulled the
14 surveillance video and looked at it that this
15 could be David Spikes comparing it to his
16 driver's license photo on January 13th when
17 the male exits --

18 Q I'm talking about December 2nd.

19 A On December 2nd you cannot see him
20 exiting the car. You see a man walk in,
21 conduct business inside the pharmacy, and walk
22 out prior to the robbery.

23 Q Are you able to view his face during
24 that time?

25 A Yes, very clearly.
